ISAR HONOURS 2022

Intergovernmental Working Group of Experts on International Standards of Accounting and Reporting

GENEVA, 2022
ACKNOWLEDGEMENTS

This publication was prepared by an UNCTAD team composed of Elena Botvina and Giacomo Melloni, under the supervision of Richard Bolwijn. The work was carried out under the overall direction of James Zhan, Director, Division on Investment and Enterprise.

UNCTAD acknowledges with appreciation the participation of ISAR Honours nominees and their efforts in the dissemination of good practices in the area of sustainability reporting as well as their contribution toward the attainment of the Sustainable Development Goals. Our deepest gratitude goes to our distinguished Review Committee members for their commitment and support of the ISAR Honours initiative.

This publication has not been formally edited.
LEADERSHIP
WELCOME MESSAGE

It gives me great pleasure to bring to you the 2022 edition of ISAR Honours. Since the adoption of the Sustainable Development Goals (SDGs) by all member States of the United Nations in September 2015, the Intergovernmental working Group of Experts on International Standards of Accounting and Reporting (ISAR) has been making significant efforts to overcome fragmentation of sustainability reporting frameworks and standards. The main objective has been to promote more reliable and comparable disclosures on the contribution of firms to the attainment of the SDGs. Furthermore, ISAR has developed guidance and training materials to assist member States with practical implementation of sustainability reporting requirements.

ISAR Honours was launched in October 2018 on the occasion of the thirty-fifth anniversary session of ISAR. This initiative aims at highlighting the efforts of organizations around the world to promote and harmonize sustainability reporting by raising awareness and disseminating global best practices. The previous four editions of ISAR Honours, in combination, attracted 150 nominations from 40 countries. This year’s edition received 65 applications submitted by public and private sector entities, marking a 50 per cent increase when compared to the 2021 edition. The total number of applications for ISAR honours has reached 215 initiatives.

In 2022, in the national category, ISAR Honours received 45 applications from 28 different countries, including 19 applications from Africa, 7 from Asia, and 8 from Latin America. The number of applications from developing countries has increased significantly. In the international category, ISAR Honours accepted 20 diversified initiatives that include trainings, institutional developments, awards programs, cooperation between existing initiatives as well as harmonization of practices, and alignments of reporting requirements and tools.
The ISAR Honours assessment methodology has been going through a process of continuous improvement on an annual basis. This year the size of the International Review Committee was enlarged to 7 members. Improvements were also made that resulted in more efficient application and review processes. In addition, new qualification criteria were introduced to make it easier to distinguish between national and international categories and to provide a more tailored and objective approach to ranking initiatives of different scope.

I would like to conclude this welcome message by expressing my deep appreciation to the members of the International Review Committee of the 2022 edition of ISAR Honours for their excellent contributions in assessing a large number of submissions. I would also like to thank all applicants for their continuous interest in the ISAR Honours and for sharing their achievements. Key findings from this process have been included in this brochure with a view to disseminating lessons learned in the process with interested stakeholders in all member States.

Richard Bolwijn
Head, Investment Research Branch, Officer-in-charge, Enterprise Branch
Division on Investment and Enterprise, UNCTAD

OBJECTIVE

The objective of the “ISAR Honours” initiative is to raise awareness and facilitate the dissemination of national and international best practices on sustainability and SDG reporting. The initiative aims to support efforts on enhancing the quality and comparability of companies reporting on their contribution to the 2030 Agenda for Sustainable Development and to monitor the implementation of the Sustainable Development Goals (SDGs).

The ISAR Honours recognizes policies, institutional or capacity-building initiatives that encourage and assist enterprises to publish data on their contribution to the implementation of the 2030 Agenda for Sustainable Development; facilitate improvements in companies’ reporting on sustainability issues - including by promoting the integration of sustainability information, such as environmental, social and governance (ESG) issues, into companies’ reporting cycle.

It is expected that the ISAR Honours will also contribute to developing national case studies on the SDG reporting by companies, enhancing stakeholder dialogue on these issues, and facilitating reporting by countries on the indicator 12.6.1 «Number of companies publishing sustainability reports» of the SDG 12 “Responsible consumption and production”.

SDG 12.6.1
“Number of companies publishing sustainability reports”
PROCESS AND METHODOLOGY

PROCESS

1. The call for nominations is issued by UNCTAD through the ISAR network and other means of outreach to potential candidates.

2. Eligible and interested counterparts apply online by filling out the application form.

3. The UNCTAD secretariat conducts an initial screening of the nominations to ensure that the templates are properly filled out and that supporting evidence is provided where required.

4. The UNCTAD secretariat establishes a Review Committee consisting of several distinguished international experts in the area of sustainability and SDGs reporting.

5. All application forms that are clear, complete and that reflect the subject matter as well as meet the qualification criteria are submitted to the Review Committee. The Committee advises UNCTAD on the selection of top-rated initiatives as recipients of the ISAR Honours.

6. UNCTAD reviews the final results suggested by the Review Committee.

7. UNCTAD organizes a Webinar with the Committee members on the assessment process to enable the committee to discuss initiatives and ratings. In case of a significant divergence of views, further discussions are conducted to achieve consensus.

8. The recipients of the ISAR Honours are announced publicly at the annual ISAR sessions. Recipients of ISAR Honours are provided with an opportunity to present their initiative to delegates attending the ISAR session in a ceremony specifically dedicated to this initiative.
METHODOLOGY

1. Committee members are requested to rate the applications on a scale from 0 (neutral/negative) to 10 (positive) by applying 4 qualification criteria and identifying the top selected initiatives. Each category has its qualification criteria.

2. The Review Committee acts on an ad honorem basis and follows the principle of “independent” votes ensuring that committee members do not evaluate initiatives that they are engaged in. Additionally, adjusted, geometric, and normalized average calculation methods are applied to remove extremes of the highest and lowest scores for each initiative.

3. The UNCTAD Secretariat compiles scores from all individual members and shares the results with the Committee. UNCTAD then organizes a Webinar with the Committee members on the process of the assessment to enable the committee to discuss initiatives and ratings. In case of a significant divergence of views, further discussions are conducted to achieve consensus.

*Please note: the ISAR Honours does not endorse any specific initiative or organization.*
QUALIFICATION CRITERIA

The initiatives will be assessed considering two categories: National and International/Regional. Each category will be evaluated against the following sets of Qualification Criteria:

QUALIFICATION CRITERIA FOR THE NATIONAL CATEGORY

1. How does the initiative improve the quality of sustainability reporting, consistency of financial and non-financial information and/or facilitate the integration of sustainability information into companies’ reporting cycle?

2. How does the initiative help to collect useful and reliable data at the national level to report on the private sector contribution towards the implementation of the SDGs and/or report on SDG indicator 12.6.1 Number of companies publishing sustainability reports?

3. How does the initiative contribute to increasing awareness, advancing knowledge, and building capacity in sustainability/ESG/SDG reporting at the national level?

4. Does this initiative have a measurable/proven impact on regulatory and institutional foundations for accounting and reporting at a national level?
QUALIFICATION CRITERIA FOR THE INTERNATIONAL CATEGORY

1. How does the initiative encourage efforts towards consolidation and harmonization among existing reporting frameworks and/or contribute to consensus-building among the main reporting stakeholders at the regional and/or international level?

2. How does the initiative contribute to improving the quality of sustainability reporting, consistency of financial and non-financial information and/or facilitate the integration of sustainability information into companies’ reporting cycle?

3. How does the initiative help to collect useful and reliable data at the regional or international level to report on the private sector contribution towards the implementation of the SDGs and/or report on SDG indicator 12.6.1 Number of companies publishing sustainability reports?

4. How does the initiative contribute to increasing awareness, advancing knowledge, and building capacity in sustainability/ESG/SDG reporting at the regional or global level?
Elsa Beatriz García Bojorges
President, Mexican Financial Reporting Standards Board (CINIF)

Elsa Beatriz García Bojorges is President of the Mexican Financial Reporting Standards Board (CINIF), the Mexican Accounting Standards Setter. She was elected Chairperson of the 38th annual session of the Intergovernmental Group of Experts on International Standards of Accounting and Reporting (ISAR). She is President of the Latin American Regional Partnership for Sustainability, created under the auspices of UNCTAD to promote sustainability reporting in the region. She is also a Member of the Board of Directors of the Group of Latin American Accounting Standards Setters (GLASS). She is also a member of the Emerging Economies Group of the International Accounting Standards Board (IASB) of the IFRS Foundation. She is an independent director and Chairperson of the Audit Committees of public and private companies.

Mario Abela
PhD FCPA FCMA

Mario Abela is a Professor of Accounting at IESEG School of Management in Paris France and Senior Strategic Advisor at the Value Balancing Alliance. He is also the current Global Chair of the World Intellectual Capital Initiative. Mario’s interest and expertise lie in understanding value and value creation and how accounting and assurance can lead to better decision-making and accountability. He has considerable standard setting and regulatory experience and has held senior management positions in both the private and public sectors in Australia, Belgium, United Kingdom and United States.

Mario is also an expert advisor to the United Nations Conference on Trade and Development on assurance, corporate reporting and has been involved in developing Guidance on Core Indicators (GCI) for reporting against the SDGs.
CA. (Dr.) Sanjeev Kumar Singhal is a Fellow member of The Institute of Chartered Accountants of India (ICAI) with more than 24 years of experience. He is a Central Council Member of ICAI and Chairman of the Sustainability Reporting Standards Board (SRSB) and Auditing & Assurance Standards Board (AASB) of ICAI. He is a Member of the National Financial Reporting Authority (NFRA), Director of XBRL India. Under his able leadership, the SRSB of ICAI has taken various initiatives towards implementing measures to improve sustainability, developing assurance standards on areas related to sustainability and initiating dialogues with Government, Regulators, and other bodies. He has over 21 books published by leading publishers and several research papers in leading journals and ICAI publications. Apart from his active participation in meetings of various international standard-setting forums, he is also representing ICAI on the South Asian Federation of Accountants (SAFA) Task Force on Sustainability, SAFA Committee on Auditing and Quality Standards and Working Committee on PAO Capacity Building of ASEAN Federation of Accountants (AFA).

Cliff Nyandoro is a professional accountant, trainer, and consultant with over 20 years of experience in financial management, accounting, and financial reporting. He is in charge of Standards and Technical Services at the Institute of Certified Public Accountants of Kenya (ICPAK) where he oversees the adoption and implementation of accounting and auditing standards in the country. He is the Secretary to the Professional Standards Committee of ICPAK, the Financial Reporting (FiRe) Award Secretariat and the ICPAK IFRS Panel. Cliff is also a member of the global IFRS Advisory Council which provides strategic support to the IFRS Foundation, the Trustees, and the two Standards Setting Boards under the Foundation – the International Accounting Standards Board (IASB) and the International Sustainability Standards Board (ISSB). He is an active member of the United Nations Conference on Trade and Development (UNCTAD’s) Intergovernmental Group of Experts on International Standards of Accounting and Reporting (ISAR), and Vice-Chair of the African Regional Partnership on Sustainability Reporting and Sustainable Development Goals (SDGs). Cliff holds a Master of Business Administration (MBA) degree in Finance from the University of Nairobi where he is currently undertaking his PhD studies in the same specialization.
Maria-Ria Nonyana Mokabane
Chief Director, Department of Trade and Industry
South Africa

Maria Ria Nonyana-Mokabane is a Chief Director in the Legislative Drafting Unit of the Department of Trade, Industry and Competition (the DTIC), South Africa. She holds the following legal qualifications: B. Procurationis, LLB, LLM, LLD, a Diploma in International Protection of Human Rights, a Certificate in Executive Management, a Certificate in American and International law and a Certificate in Corporate Governance. She serves as a member of the Access to Justice Programme with the South African Human Rights Commission, and a Judge for the Africa-Regional Moot Court on Space Law. She is the representative of the DTIC in the Inter-governmental Working Group at the United Nations Human Rights Council on Transnational Corporations and Other Business Entities on Business and Human Rights. Also, Ms Nonyana-Mokabane is the focal coordinator for UNCTAD’s technical cooperation Development Account project on enterprise sustainability and reporting toward the SDGs in Africa and Latin America.

Ilcheong Yi
Senior Research Coordinator, United Nations Research Institute for Social Development

Ilcheong Yi is Senior Research Coordinator of Alternative Economies for Transformation Programme / Transformative Social Policy Programme at UNRISD. He joined UNRISD in October 2008 after several years of teaching at various universities in different countries. Born in the Republic of Korea, he was trained as a political scientist (B.A. and M.A. from the Department of Political Science, Seoul National University, Korea) and as a social policy analyst (D.Phil from Oxford University, UK). His research deals with a wide range of issues associated with economic, social, and environmental problems. He is currently leading several research projects on SSE, such as Promoting SSE through Public Policies: Guidelines for Local Governments; and Sustainable Development Performance Indicators. In addition to his Senior Research Coordinator’s role at UNRISD, he is also in charge of the Knowledge Hub of the United Nations Inter-Agency Task Force on Social and Solidarity Economy. He has authored and edited numerous books, journal articles and book chapters, including two forthcoming co-edited volumes (Encyclopedia of Social and Solidarity Economy (Edward Elgar) and Emerging Trends in Social Policy (Policy Press))
Edward Olowo-Okere

Senior Advisor, Equitable Growth, Finance and Institutions (EFI), The World Bank Group

Ed Olowo-Okere has three decades of experience working on governance issues around the world. Previously, he led the World Bank’s Governance Global Practice, which focuses on helping countries build capable, effective, accountable, transparent, and inclusive institutions that deliver citizen-centric services, facilitate private-sector growth, and improve trust in Government. He joined the World Bank in 1998 and has held various positions in operations, including Director of Governance overseeing Africa, MENA and ECA regions, Director for Financial Accountability & Reporting and Head of the Bank’s Financial Management Family, and Director of the Core Operational Services Department in the Africa region. Before joining the Bank, Ed held public and private sector positions. He has researched and published in reputable international journals and lectured at undergraduate and graduate levels in Nigeria and New Zealand on accounting and finance. Ed Olowo-Okere was recognized as a Governance Pioneer in 2021 by the World Economic Forum Global Future Council on Agile Governance among the world’s 50 most influential people driving agile initiatives to ensure governments can effectively navigate disruptions like COVID-19 and the climate crisis.
ADIFCO
Kapalaj

Country of origin: Guatemala

Kapalaj is a digital platform that has an objective to connect, operate, support, audit, lead, and finance all the stakeholders needed to fulfil the SDG in this decade of action. With this platform, we aim to the digital transformation of social projects by providing tools like crowdfunding, blockchain technology, the sharing economy, the marketplace of projects, digital marketing, and exploiting social media. By providing access to massive funding capabilities, enabling blockchain technology to create trust in projects, and financial operations, a predefined digital environment accessible through our digital platform where all stakeholders can connect in ways that are not analogy possible, offering social feasible projects to donors that want to help, bringing all these digital environments to portrait visual content and share it throughout social media.

African Corporate Governance Network
ACGN - Directors Week Conference

Country of origin: Ghana

The African Corporate Governance Network intends to stimulate the culture of good corporate governance and leadership in the Public and Private Sector space on the African Continent. The initiative will lead to an annual event in the African Calendar. The key objectives of this initiative are the stimulation of the culture of good corporate governance and leadership, the creation of a networking platform with stakeholders in the governance space, building capacity for participants to advance ESG and sustainability issues and celebrating promoters and achievers of good corporate governance. The initiative would bring consolidation and harmonization of reporting frameworks by applying useful and reliable corporate governance databases in Africa.

African Corporate Governance Network
Excellence Awards
Country of origin: Ghana
The overarching aim of the awards is to stimulate and sustain the culture of good corporate governance, and to champion director professionalism and development for the benefit of organizations for the prosperity of Africa. It is also aimed at celebrating individuals and organizations in the public and private sector socio-economic spectrum who have distinguished themselves and their organization in practicing and exhibiting good corporate governance which has led to desirable outcomes of ethical culture, good performance, effective controls and legitimacy. This initiative is aimed at reversing the falling standards in corporate governance culture in Africa that has plagued most African countries.
Find out more information at: www.afcgn.com

African Corporate Governance Network
Expansion Project
Country of origin: Ghana
The ACGN has noted that 34 countries do not have corporate governance institutions in Africa hence impacting on ethical and effective leadership and good corporate governance which results in deteriorating the socio-economic situation in those countries. As a result, the aim of this initiative is to ensure that all remaining African Countries have Corporate Governance Institutes established to promote good governance outcomes through training, national policy development and improvements in the area, promotion of advocacy and research. Further, this initiative should advance awareness to directors and enable improved quality of sustainability reporting and collection of useful and reliable data at continental level.

Colegio de Contadores Publicos de Pichincha y del Ecuador
Growth and sustainability. The Social and Corporate Responsibility of accountants
Country of origin: Ecuador

The initiative consists of the empowerment of accounting professionals to be able to provide clear guidelines on a trend of global importance that constitutes sustainability reports. Accounting experts are primarily focused on bookkeeping with a strong emphasis on tax law compliance that is an issue for our entire region, including Ecuador. We are looking for a professional who is not only oriented to know, understand and apply, but also has a logical judgments to analyze, synthesize and create. The initiative promotes the role of the importance of non-financial information as a complement for economic and social development within our country.

Douala Urban Community
Douala “Green City” Program

Country of origin: Cameroon

The project aims to improve the landscape and the provision of public spaces. It ensures the cohesion of the greening and public space policy with the programme 'returning pavements to pedestrians'. The initiative contributes to a better quality of reporting on sustainable development, to a cohesion of financial information through the inclusion of the project in the budget of the Douala Urban Community. The initiative contributes to raising awareness and advancing knowledge and building capacity through the multiplication of similar projects in the different cities and through its attractiveness and the execution of its tasks or the level of consumption of related tasks.

Consejo Mexicano de Normas de Información Financiera (Mexican Financial Reporting Standards Board, CINIF)

Establishment of a Sustainability Strategy – Issuing of Mexican Sustainability Disclosure Standards

Country of origin: Mexico

Stakeholders increasingly require integrated reports that include sustainability information and it’s therefore necessary to establish sustainability disclosure standards in Mexico to complement financial reporting and meet global commitments on sustainability & SDG reporting. Therefore, using its leverage as Mexico’s financial reporting standards issuing institution, the CINIF is updating its statute in order to widen the scope of its mandate to be able to issue and disseminate sustainability disclosure standards in Mexico in convergence with the ISSB standards and UNCTAD frameworks, and in this way promote the evolution towards integrated corporate reporting in Mexico, including for the SMEs.

Development Bank of Rwanda

#CanaChallenge

Country of origin: Rwanda

#CanaChallenge is a social investment initiative that started with the aim of raising enough funds to provide 10,000 homes across Rwanda (in off grid areas). The majority of these families were women lead households. Within 5 months, we have been able to mobilize funding for over 23 thousand families. Through consistent reporting and updates BRD has been able to meet and surpass its initial target.

ECORED
Integrated and Sustainability Reports: Corporate Transparency and Positioning

Country of origin: República Dominicana
“Integrated and Sustainability Reports: Corporate Transparency and Positioning” isa space meant to encourage companies to publish sustainability reports by creating awareness about their benefits to the company and sustainable development. The initiative sought to provide context about reporting trends and methodologies, present two success stories from different sectors (mining and the metal industry), and provide a space for discussion about the benefits, challenges, and opportunities of sustainability reporting. By outlining a roadmap for reporting, ECORED hopes to motivate companies to begin gathering information on their sustainability performance to use it as an input for reports under more rigorous methodologies.

Entrepreneurship Development Educational Network in Africa (EDEN AFRICA)
Report-IN (interactive digital platform on the intelligence of companies' data on the implementation and monitoring of SDGs)

Country of origin: Cameroon
Since 2015, there is a real challenge of intelligence and data collection for the implementation of the SDGs. Webinars, seminars and training have not improved the situation as the methods used remain cumbersome for companies. This is why Eden Africa plans to set up an interactive intelligence and data collection platform whose objective is to improve reporting methods; facilitate the evaluation of the SDGs to advance national policies and programs and share good practices in corporate reporting.
Find out more information at: www.eden-africa.org
Ghana Association for Integrated Thinking & Reporting
GAITR
Country of origin: Ghana
In 2019, IoD-Gh hosted a Masterclass with the Chair of the International Integrated Reporting Council, Professor Mervyn King for stakeholders in Ghana. During the session, it was noted that Ghana as a country needed to have a National Integrated Reporting Committee. Accordingly, IoD-Gh accepted the responsibility of leading the charge of establishing the National Integrated Thinking and Reporting Committee. In view of the above, the Ghana Association for Integrated Thinking and Reporting was established with the aim to promoting integrated thinking and reporting culture in Ghana. The initiative also aims at promoting stakeholders’ understanding and acceptance of integrated thinking and reporting.

Hong Kong ESG Reporting Awards Limited
Hong Kong ESG Reporting Awards
Country of origin: China (Hong Kong)
Hong Kong ESG Reporting Awards is a not-for-profit initiative, aiming to build trust among stakeholders. HERA is judged by an independent panel of judges with distinguished backgrounds. The Awards represents the most prestigious form of recognition for companies in Hong Kong on Corporate Sustainability. HERA are open to listed and non-listed companies in Hong Kong who have exceptional practices in sustainability reporting.

Institut de sondage et d'étude en statistique et en économie (I2SE)
Harmonize the measurement of stakeholders' efforts to achieve the SDGs
Country of origin: Togo
The initiative is about measuring progress and therefore assessing the path that remains to be taken by stakeholders and countries to reach their targets. It provides all stakeholders with a system for collecting information on the SDG indicators. The information provided in the form of tables by the stakeholders is used to produce reports at the sector level. It is a monitoring and evaluation mechanism based on the use of a composite index that quantifies the efforts made to achieve targets. Actors benefit from capacity building in the production, processing, analysis and writing of SDG monitoring and evaluation reports. The data is used to measure the sector’s effort to achieve the various SDGs’ targets that Togo has chosen to monitor. The index thus makes it possible to quantify the effort made by the country to achieve the targets it has set at the national level and at the disaggregated level.

Institute of Directors Ghana

IoD-Gh Excellence Awards

Country of origin: Ghana

The main objective of the awards is to promote director professionalism and growth via education for the advantage of companies and stakeholders as well as the development of Ghana. It also aims to recognize the accomplishments of individuals and organizations across the socioeconomic spectrum, in the public and private sectors, who have distinguished themselves and their organization by engaging in and demonstrating good corporate governance, which has produced desired results like an ethical culture, strong performance, efficient controls, and legitimacy. This initiative is aimed at reversing the falling standards in corporate governance culture in Ghana which has resulted in collapse of the Banking services sector in Ghana between 2017 and 2020 an event described as the worst economic crisis since Ghana’s independence.

Institute of Directors Ghana

IoD-Gh Directors Week Celebration

Country of origin: Ghana

Good Corporate Governance, Leadership and reporting are the critical fundamentals in every corporate development. This has become a very critical issue of concern which is impacting negatively on the attainment of organizational and personal leadership goals. It is appearing as if leadership is falling on all fronts; public, private, industry, regulation, political, chieftaincy, academia, religion and individual fronts. IoD-Gh identified the problem and designed the initiative to stimulate the culture of good corporate governance, leadership and sustainability reporting in the public and private sector space. Objectives include 1. Bring Critical actors to a common platform to re-examine why corporate governance and leadership are gradually failing and develop a strategic plan for the way forward. 2. Increase awareness of best practice and adoption of environmental and sustainable reporting formats. 3. Network with International and Local stakeholders in the governance and leadership landscape.

JSC "Information and Accounting Center" of the Ministry of Finance of the Republic of Kazakhstan

Information service for appraisal activities "Bagalau"

Country of origin: Kazakhstan

The main prerequisites for the creation of the Bagalau Service include unfair assessment of the value of the real estate, unauthorized adjustment of the market value of the appraisal object and, as a result, fraud with real estate that provides low access to information and facilitates the growth of social tension and the infringement of the rights of citizens and business representatives. The main goal of the project is to improve reporting and increase transparency and reliability of the information on property valuation.

Ministry of Economy and Finance of Côte d'Ivoire
Creation of a National Platform on Green Finance

**Country of origin: Côte d'Ivoire**

Resolutely committed to the climate, Côte d'Ivoire has taken a large number of initiatives. It therefore seemed appropriate to set up a multidisciplinary platform involving all stakeholders, in particular the ministries in charge of planning, environmental development, environment, fiscal policy, private investment, GHG-emitting sectors, and climate-vulnerable sectors (agriculture, fisheries, etc.), which is the subject of this draft inter-ministerial order. The main goal of the project is to improve reporting / information disclosure, increase transparency and increase the reliability of property valuation information. In this regard, the implementation of the project directly correlates with raising awareness, expanding knowledge in the field of reporting and sustainable development /SDG in the country.

Ministry of Finance and Economy (MFE)
Improvement of the financial reporting in the public sector

**Country of origin: Albania**

The Government of Albania is committed to the gradual introduction of a modern system of public sector accounting based on international standards. Public accounting in Albania is currently done on a cash basis with elements of accruals with regard to assets and liabilities. This initiative aims to enhance the quality of public sector accounting and financial reporting in the Republic of Albania, considering the clear need for reforming financial reporting across Albania. This reform includes: a) Development of public sector accounting and financial reporting in line with International Public Sector Accounting Standards (IPSAS); b) Development of Ministry of Finance and Economy (MFE) capacities and c) Development of professional accounting skills for public accounting practitioners.

National Audit Office of Tanzania
Reporting on alignment and Implementation of SDG at National Level
**Country of origin: Tanzania**
NAOT has been aligning its audits with 17 SDGs. Some of the goals addressed in the reports include:
GOAL 3: Good Health and Well-being - Management of Construction of Healthcare Facilities; GOAL 6: Clean Water and Sanitation - Control of Hygienic Practices in Food Markets Objectives - to ensure that Tanzania controls over the spending and check priorities of public resources in line with SDGs. The initiative is challenged by systematic mapping and reporting of the SDGs by the audited entities. It impacts on regulatory and institutional foundations for accounting and reporting at the national level by ensuring all projects are aligned with SDGs and systematically assess the impacts provided in improvement of citizens livelihood.

Nigerian Integrated Reporting Committee
Corporate Reporting Award
**Country of origin: Nigeria**
The Corporate Reporting Award initiative provides a way of encouraging listed companies to embrace integrated reporting, as well as sustainability reporting. It creates awareness on sustainability reporting amongst listed companies and spurs them to attain the height of recognition for an award by out-performing others. The companies’ reports are reviewed by a body of independent and knowledgeable reviewers who give unbiased feedback to both the companies and regulators.

Ping An Insurance (Group) Company of China, Ltd.
Ping An China ESG Initiative and AI-ESG Integrated Platform

Country of origin: China
As the leading insurance company in China, Ping An builds insurance capital with a long-term perspective. Driven by intrinsic long-term investment needs as well as expectation from global investors, Ping An launched AI-ESG, which facilitates companies and financial institutions to become better suited in the ESG eco-system. AI-ESG aims to be a role model of corporate disclosure solution and ESG investment in China. By continuous enhancement with AI algorithm, alternative data and ESG investment practice in Ping An, it has been handling challenges of ESG in China, e.g. lack in a unified disclosure standard, data availability, and awareness and acceptance of ESG.

Rating-Agentur Expert RA GmbH
RAEX Sustainability

Country of origin: Germany
RAEX Sustainability improves sustainability understanding in the CIS region, highlight importance of transparent ESG reporting, uncover interesting opportunities in field of sustainable finance and assist local regulators in establishing sustainability regulations facilitating transformation of local businesses from brown to green. The initiative helps a broader scope of companies, especially SMEs to understand importance of sustainability reporting and how to make such reporting, including gathering and disclosing non-financial information. We participate in regulatory development groups in Russia, Kazakhstan and Belarus in order to promote better sustainability disclosures in those countries.

SAIBA
Draftworks
**Country of origin: South Africa**
SAIBA is prescribing the standards that business accountants should follow when providing financial and non-financial reporting engagements to clients in South Africa. Our technology partner Draftworx automates these standards into a cloud solution to ensure ease of use, efficiencies, and the ability to collect, allocate, summarize, compare, extract, and report on information generated. Draftworx is already a Software Service Providers (SSPs) with the Companies and Intellectual Properties Commission (CIPC) created for the purposes of reporting financial information in XBRL format. The solution will enable to report to CIPC on the Core SDG indicators and issue a report to accompany the SMEs Annual Financial Statements.

Saudi Organization for Chartered and professional accountants
Support and stimulate opportunities for small and medium enterprises in the field of accounting, zakat and tax
**Country of origin: Saudi Arabia**
This initiative aims at improving work in the areas of accounting, zakat (payment made annually under Islamic law on certain kinds of property) and tax by providing support to small and medium enterprises in organizing specialized courses. The objective of the initiative is increasing the number of individuals specialized in providing accounting services, bookkeeping, tax and zakat services. It will increase the number of SMEs preparing their financial statements and using them to seek funds or borrow money. This will allow stakeholders to base their decision on reliable numbers and preserve any funds or money from being wasted. Also, reliable numbers in the financial statements will give the tax authority better knowledge about taxes at macro level and micro levels.

Securities and Exchange Commission Philippines
Capacity Building Exercises And Partnerships On Sustainability Reporting

**Country of origin: Philippines**

In 2019, the SEC Philippines mandated publicly-listed companies to submit annually a sustainability report (SEC Memorandum Circular No. 4, Series of 2019). In this regard, the SEC built strategic partnerships with several organizations to conduct a series of dialogues, training and capacity building exercises and fora to assist PLCs in the preparation of their sustainability reports. These exercises were tailored to address both sector-specific concerns and the public in general. These activities and partnerships paved the way for the private and public sectors to have an open dialogue on sustainability reporting and sustainable business practices.

The Future Community Foundation

The Future Community Foundation

**Country of origin: Zambia**

FCF is a Center for Research and Innovation supporting SMEs to develop inclusive and viable business models that link multiple supply value chains. FCF connects SMEs for youth and women with cooperation partners of larger capacities of the project value chain. It helps to merge SMEs suitable to reach fewer larger interventions instead of a large number of small interventions. The Future Community Foundation has an ongoing Business Acceleration Programme, FCF is working with SMEs and Large Companies to ensure that they are economically viable, socially inclusive and environmentally friendly. Companies have developed financial policies, strategies, plans and systems at national and subnational levels to achieve sustainable management of extractives and employment/livelihood intensive productive sectors for reduction of poverty and inequalities. Productive companies expand income earning opportunities that are decent and sustainable, especially for youths and women in the poorest areas.

Afrique RSE and CSR Network Africa
CSR law in OHADA for the Harmonisation of Business Law in Africa and Barometers on CSR in Africa

In Francophone Africa, the deployment of CSR and the publication of sustainability reports is a real challenge. In order to move the lines, we have launched several initiatives: CSR Barometers, webinars, creation of the CSR ODD Africa network, organisation of conferences and publication of analyses (more than 100 articles already published). As part of our services, we train executives and managers on CSR and the SDGs, carry out diagnoses, draft sustainability reports, and assist governments and institutions in developing CSR policies and the requirement to publish sustainability reports. The activities support the improvement and harmonisation of CSR reporting in the 17 member countries of OHADA. Through the CSR Barometer, we provide countries with a tool to analyse the quality of CSR reporting at country or sector level.

Cámara Colombiana de la Construcción
Construimos a la par

The phenomenon of unemployment affects women more severely. In the construction sector there is a significant gap in female employment, since 93% is made up of men, with only 6% female participation in the construction sector in Colombia. The program is a commitment of the union to contribute to closing gender gaps in the construction sector and its value chain, whose main objective is to generate more and better conditions for women in the construction sector in the country. Throughout the program, reports will show a national increase in the engagement of women in the sector as an advance for equity. With the program, the reports will have a positive impact on productivity and management with social responsibility. Find out more information at: www.camacol.co

EFRAG
Reporting of non-financial risks and opportunities and the linkage to the business model

The initiative’s mandate is to identify good practices in the reporting of risks and opportunities arising from sustainability-related matters and how these are linked to the business model. A review that took place on how technology, including artificial intelligence, blockchain, structured data, and satellite imagery is used in the creation and consumption of sustainability reporting information, demonstrated that reporting on impacts, including SDGs and dependencies is one of the key analytical dimension for assessing good reporting practices. Find out more information at: https://www.efrag.org/Activities/2010051121466598/Risks-opportunities-and-business-model

FAO
Guidance on core indicators for agrifood systems – Measuring the private sector’s contribution to the Sustainable Development Goals

This initiative is a sector-specific complement to UNCTAD CGI targeting private sector entities involved in agrifood systems. It provides practical information on how to measure their impact in a consistent manner and in alignment with national SDG monitoring needs. It aims to address gaps of current reporting standards with regards to capturing the main impact of agrifood entities on the SDGs, and the lack of coherence in existing sustainability reporting standards and data. Support the Goals Ltd

Support the Goals

Support the Goals is an initiative to research, rate, and recognize businesses that are publicly supporting the UN Sustainable Development Goals. It is the world’s largest database of business support for the SDGs that carries out research on large publicly listed businesses and their supply chains, providing free education and resources on the SDGs for suppliers. The simple rating system provides a roadmap for businesses to improve reporting. The process is easy to follow for small businesses and large multinationals alike. The initiative gives recognition to businesses by sharing their performance in an online SDG tracker at businesses.supportthegoals.org.

World Bank Group & IFC
Improving Sustainability Reporting in Emerging Markets

The Toolkit was a winner of the World Bank Group President’s Award for Excellence (2019) released in 2018 at an LSE event. Since then, it has provided companies, investors, stock exchanges, and regulators with an innovative and flexible model for disclosing material sustainability and climate information, together with financial data. Of note is that the Toolkit shows users how they can develop integrated financial and sustainability disclosure leveraging the best of all current reporting frameworks as well as the SDGs. Lastly, the Toolkit Program is currently developing an online platform, in which companies can disclose their sustainability reports and a place where investors and stakeholders can access sustainability reports.

TESTIMONIALS
We are very delighted at ICPAR to receive this award together with our sister organization ICPAK. Since we have a mandate of operating within the public interest, we share the same values as ISAR of raising awareness of sustainability and SDG reporting. We hope this award will give us the much-needed boost to take this message at the national level and encourage many more enterprises to raise their bar for better reporting and providing relevant information to create value.

—Amin Miramago, CEO – Institute of Certified Public Accountants of Rwanda (ICPAR), ISAR Honour Recipient 2021 in the National Category

The ISAR Honours are an amazing initiative of UNCTAD. It creates an international platform to share ideas and showcase the global efforts of a diverse set of organizations in support of the UN SDGs. As a past recipient of an award, I can attest that the Awards enhanced our environmental credentials.

—Amin Nicolaas Van Wyk | Chief Executive Officer, South African Institute for Business Accountants
ISAR Honour Recipient 2021 in the National Category

It is a great privilege for us to receive the ISAR Honour Award. Our partnership, which focuses on sustainability reporting in the SME segment, shows how together we can inspire more companies to report on sustainability and we are dismantling the myth that reporting on sustainability and the Global Goals are oriented only to large companies.

—Sara Krüger Falk, Executive Director, Global Compact Network Denmark and Birgitte Mogensen, Chairman of the Committee for Sustainability and Social Responsibility in FSR - Danish auditors.
ISAR Honour Recipient 2021 in the National Category
As a global network of trailblazing companies, we are very glad to be recognized by ISAR Honours 2021 by providing an impact measurement valuation scheme tested in day-to-day business activities, we hope the VBA can contribute to enhancing corporate disclosure, decision-making, and better alignment of private and public sectors in fulfilling the SDGs.

—Jun Suk LEE, COO, Value Balancing Alliance
ISAR Honour Recipient 2021 in the International Category

On behalf of FBN and the entire family business community, I would like to thank ISAR for awarding Family Business for Sustainable Development this special recognition. This honour provides every family business great encouragement to become more transparent and put sustainability at the centre of our business strategies. We will continue to work hard to accelerate our sustainability journeys to be worthy of this special recognition.

—Alfonso Libano Daurella, Co-Chair, Family Business for Sustainable Development
ISAR Honour Recipient 2021 in the International Category
